

UZAIR UR RAHMAN

03344331947 | uxair18@gmail.com | Lahore

Summary

I am a results-driven software professional with **5+ years of experience** in end-to-end development and IT project delivery. My expertise lies in delivering **cloud-based and scalable solutions**, effectively translating complex requirements into high-quality products. I excel at **directing cross-functional teams** through Agile methodologies, ensuring successful project execution and promoting strong collaboration across diverse technical teams.

Experience

Dev Studio | Lahore

Technical Project Manager | 12/2025 - Present

- **Acted** as the main point of contact between clients, stakeholders, and technical teams, translating business requirements into clear technical tasks and delivery plans
- **Regularly** communicated with clients to share progress updates, manage expectations, handle scope changes, and resolve issues proactively
- **Led** Agile Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives to keep the team aligned and delivery-focused.
- **Planned** and delivered sprints end-to-end, ensuring commitments were met through effective backlog grooming, task prioritization, and capacity planning
- **Worked** closely with developers and QA teams on effort estimation, timelines, and dependency management to support predictable releases
- **Identified** and removed blockers by coordinating across teams, escalating risks early, and driving timely resolutions
- **Supported** cloud-based deployments by coordinating releases and utilizing AWS services for hosting, environments, and production rollouts
- **Ensured** quality and stability of deliveries by aligning acceptance criteria, monitoring sprint outcomes, and encouraging continuous improvement

Iskaan Tech Labs | Lahore

Technical Project Manager | 04/2024 - 09/2025

Government Organization | Ajman Government

- **Directed and oversaw** end-to-end IT programs and portfolios across 20+ project teams, ensuring timely and cost-effective deployment of enterprise solutions.
- **Applied** Agile, Scrum, and SDLC methodologies to optimize delivery cycles, boost collaboration, and align execution with business goals.
- **Executed** detailed risk assessments, formulated contingency plans, and ensured project continuity and compliance.
- **Collaborated** with stakeholders, business analysts, and engineering teams to resolve bottlenecks and maintain transparent communication.
- **Supervised** budgeting, resource planning, and scheduling while aligning with strategic priorities and compliance standards.
- **Introduced** process improvement initiatives that enhanced workflows, productivity, and overall program performance.

Techmate Technologies LLC | Lahore

Technical Project Manager | 12/2021 - 04/2024

- **Directed** project delivery and Agile sprints, leading cross-functional teams and coordinating client communication while optimizing AWS deployments.
- **Promoted** to Floor Manager for boosting delivery efficiency and team collaboration across multiple departments.
- **Enhanced** CI/CD pipelines and AWS infrastructure, improving deployment efficiency and ensuring reliable product releases.

OOGLOO LLC | Lahore

Project Manager | 05/2020 - 12/2021

- **Oversaw** full project lifecycles—planning, budgeting, and risk management—ensuring alignment with business goals.
- **Facilitated** Agile/Scrum ceremonies including sprint planning, stand-ups, and retrospectives; supported backlog management and team velocity tracking.

Clustox | Lahore

Software Engineer | 05/2019 - 04/2020

- **Created and deployed** full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), ensuring scalability and performance.
- **Collaborated** with teams to build APIs, optimize database queries, and manage AWS deployments, delivering high-quality web solutions.

Urdu, English

Projects

AQARI OA / Escrow System

- Built for the **Ajman Government** to remotely manage OA projects across communities with **role-based access portals** for Admins, Vendors, Developers, CMC, and Owners.
- Included modules such as **Happiness Center**, **Communication Hub**, **Tenders**, **Budgeting**, and **Accounting** for operational transparency.
- **Enhanced** automation, data-driven decision-making, and performance through centralized dashboards and APIs.

SaaS CRM

- **Supervised** 40+ CRM systems for real estate agents and property managers, improving reliability and scalability.
- **Optimized** client onboarding from 15 days to 1–2 hours through system re-architecture and workflow automation.

Earthbirder

- Developed a **bird-watching platform** allowing users to book guided trips with vendors via secure online payments.
- Focused on a **responsive UI/UX** for seamless discovery, registration, and booking experiences.

GuardMetrics

- Created a **security management system** with **geo-fencing**, **breadcrumb tracking**, and **multi-level access** for managers, leads, and guards.
- Enabled **auto check-in/out** and live tracking via web and mobile apps to improve accountability.

The Doge Pound

- Designed an **NFT-based play-to-earn game** where users can **buy, train, and trade digital pups** for crypto rewards.
- Integrated **smart contracts**, **NFT staking**, and **marketplace modules** to ensure secure ownership and transactions.
